## New Books from Harper & Bros. As Christmas Gifts

The distracted Christmas-gift hunter usually pauses at least once in his or her wild career and says, 90, bother! I can't think of anything fur so-and-so. I'll get them a new novel. They always appreciate that." For those in this predicament, not to mention the wise ones who know that a book is a better first choice than a last, Harper & Brothers have a goodly half-dozen of new story books in which the most exacting can find rest and refreshment.

For those who thirst for adventure parexcellence there is "The Heart of the Sunset," told in Rex Besch's most thrilling style. The scene is laid in Mexico and the background is all brigands and such. There is also "The Rainbow Trail," by Zane Gray, a sequel to "Riders of the fineness of the Indian character when treated as an equal by the wild, rugged country where the action occurs, and a clear impression of the fineness of the Indian character when treated as an equal by the white man.

Likewise radiant with adventure albeit less truculent is "The Trail of the Hawk," by Sinclair Lewis. The hero, after many vicissitudes, comes into his own, sentimentally and otherwise, as an air-man, For those who like action combined with philosophy "The Landloper," by Holman, will afford splendid entertainment. Here is the knight errantry of cities whose adventures are nonetheless engrossing because lacking in potential bloodshed. And the characters in the book are persons and not nuclei of action merely, "The Inner Law," by Will N. Harben, will appeal to those who like a story with uplift in it. The hero rises upon the ashes of his dead self to higher things. What more can you want? Margaret Deland's "Old Chester Tales" have delighted so many thousands that "Around Old Chester" needs no praise. garet Deland's "Old Chester Tales" have delighted so many thousands that "Around Old Chester" needs no praise. It is enough to say that it is a collection of new "Chester Tales" and that they display the same sure touch, the same insight into human nature and the same artistic restraint that belongs to all the works of the gifted authoress.

Finally, in "The Money Master," by Sir Gilbert Parker, we have a splendid story of Canada of today by another master story-teller. Sir Gilbert again seeks the environment in which his strongest characters have had birth, and again writes with the fullness and freedom of naturesend him to sea, and the girl mar-ries and leaves Old Chester, and for with the fullness and freedom of natureart. The central character of the tale is a Wealthy Canadian of the French type and his French wife and two other forty-eight years they do not see each other. "The Voice" and "Miswomen provide most of the action. Sir Gilbert has himself characterized "The

Money Master" as possibly the best of all his novels.

There is not a dull one among all these THE LANDLOPER, by Holman Day seven books, and one seeking distraction, either for self or friends, will make no of Holman Day's. It is the romance of the highroad of a modern knight errant who did not set out to redress human wrohgs, but who did good almost against his will.
